

# SAVVY | Non-Vision AI

## Space Safety & Management Solution

SAVVY: Protects Without Watching

### Non-identifying Sensors + AI

Learns behavior patterns with non-identifying infrared (ToF\*) sensors

Incident Occurs

Auto-Detection

On-site Alarm & Remote Alert

**Real-time detection of human motion  
& abnormal behavior without cameras**

Entry/Exit

Panic  
Button

Illicit  
Filming

Fall

Assault

Drug-Use  
Behavior

Methamphetamine only

Fire  
/Smoking

\*Particulate detection

Scream/  
High-Volume

dB based

### Application

Public Restrooms

Fitting Rooms

Stairways / Corridors

Hospitals / Care Facilities

**Ideal for camera-prohibited/  
restricted areas**

### Benefits

Zero Privacy Intrusion

1-Second Alert

98%+ Accuracy

Lower Operating Costs

**H/W + platform subscription ·  
API integration**

**Localized & Tailored Services Available**

\*ToF (Time of Flight) infrared sensor: measures the time (distance) for infrared to reflect back from a target.
