

Why should it be Ecle?

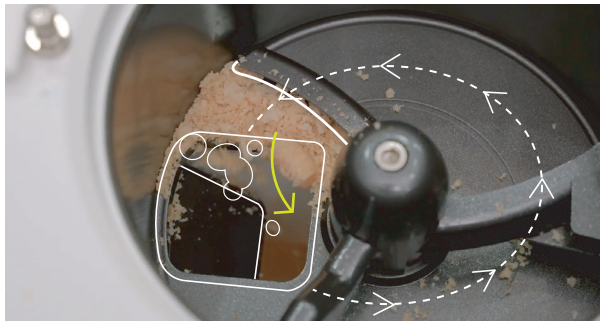

Auto-archive function

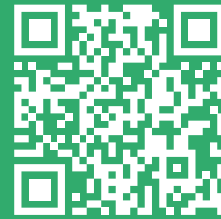

It's more convenient because you can store food waste without having to throw it away right after processing!

Structure

When the food reaches a certain amount, the bin door opens and the blade rotates to put the crushed food into the bin!

Innovative
food waste disposer

ECLE

01 90% volume reduction

Reduce food waste by 90% without having to worry about it. Families of three consumes approximately 40L of food per month, and Ecle is finely ground to a 90% reduced volume within 3 hours.

02 Automatic storage function without cleaning

With the world's first automatic storage function, you don't have to worry about emptying the storage container!

After putting in food, Ecle does not need to take out dried by-products or clean the food bin. You just need to throw away the by-product storage bin.

Patented mixed dual exhaust technology blocks the source of odor. The premium filter completely blocks all odors, and the operating sound is 30db, which is equivalent to a whispering sound.

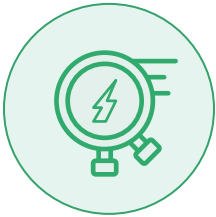

04 Quickly and

without any impossible food

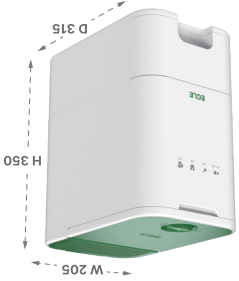

Powerful 400W motor grinds all food into powder.

It processes various types of food waste quickly and inexpensively with a patented sealed structure and a single-use electricity fee of 106 won.

05 Modern design and compact size

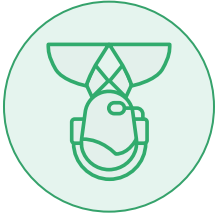

Its size is perfect for the kitchen and its modern design matches well with the interior.

Most families of four generate less than 2 liters of food waste, and the compact size and high energy efficiency make it practical for our kitchens.

06 18 months free A/S and one-stop A/S network

We operate an integrated A/S center, so you can conveniently apply via phone or KakaoTalk and receive fast A/S.

Ecle Collection Service

Ecle's collection service that starts with a food waste disposer and takes full responsibility from Eco Life to the end.

We make high-quality fertilizer from by-products of fertilizer production.

Ecle Service collects dried by-products and turns them into fertilizer. Using microbial technology, they turn nutritious Korean food into high-quality fertilizer. And they give you a portion of the sales cost as points.

Sign up for Ecle's collection service!

- People who use food waste disposers
- Anyone who has had an uncomfortable experience while using a food waste disposer
- People who want to manage waste easily
